PROJECTS

Conduit : Publishing Platform

Medium is an online publishing platform. This is similar to Medium. In this project, I have developed frontend of this website. <https://github.com/ankitchouhan1020/medium-clone>

Technologies used: VueJS 2

GSoC-Orgs-with-Technologies-List

Python script to get participated GSoC organisations 2018 list with their working technologies.
<https://github.com/ankitchouhan1020/GSoC-Orgs-with-Technologies-List>

Technologies used: Python3, BeautifulSoup

Eureka Web App

Eureka is an online event organised by Vision. It's a five-day long online event. Each day question was published on the website page and response from the authenticated user was recorded in database.

Technologies used: Vue JS, Vuetify.

Vision Website

Vision is a Technical Society at MANIT Bhopal. A team of three students, including me, developed this website.

Technologies used: HTML, CSS, Javascript
